## BE PROVOKED!

Provocator is a well known underground cult denim label. Provocator made their mark on the fashion scene by being the only in-house Australia made label that refuses to conform and obey the rules. Provocator's creations embody self expressionism and unique innovation. Provocator creates to satisfy the ever unyielding demands of the fashion forward. Daring to be different and pushing fashion boundaries, Provocator has emerged as a cutting edge label that is distinct and appealing to the echoing needs of fashion collectors.

Provocator has evolved from the love of denim complimented with an assortment of washes, rinses and treatments to compose a synchronization of clothing that is bold and directional, sophisticated but fun. The denim processes used are not only Australian made with Australian sourced fabrics and natural plant dyes but are manufactured in an eco friendly manner. Testing fabrics and garments, Provocator is of exceptional quality and each design maintains the integrity that Provocator is proudly known for.

Provocator is outpacing the growing demand for trendy urban wear that is versatile, durable and most importantly uniquely styled for those with a desire to provoke, amaze and inspire. Provocator moves away from the pretention to create and develop looks to reflect the modern day rebel, outlaw, fashion lover, intellectual, eccentric and wild child.

Provocator's focus can be measured by its value on fabrics, natural processes, hand finishes, a broad palette of colours, rinses, washes and dyes using traditional methods that achieve versatile, distinctive and contemporary looks.

Provocator's owner & designer, Arthur has a passion for fashion & denim which is reflected in his love for Provocator.

## SUMMER 09/10

Provocator's latest collection is set to sizzle this summer with experimental looks that not only challenge but create a visual degustation of provoking fashion statements! Provocator's Summer 09/10 has a wide variety of looks and feels, creating styles that are set to appeal. Each piece is made up of intricate design, flawlessly created to look effortlessly styled.

Provocator's summer palette expands from warm neutrals which are rich and refined and have mass appeal to brights that flourish that grab and steal the attention of those young and fresh looking to mix their look. The beach has never looked hotter with hand ripped & frayed denim summer shorts in a range of colours from natural to rust, to make all the other's blush! Matching men's jeans that are hand ripped and torn, we're not selling the propaganda you were once taught.

The cool summer's breeze brushes against the skin it stimulates the senses whilst wearing Provocator's perforated white leather jacket. Hand dipped dyed crop tops with button shoulder openings and studded stretch shine skinny black jeans go from back alley cafe vogue to mirror ball lit night club dance floors.

And that's just a taste of Provocator's Summer 09/10. Head turning looks for any where any place, worn just as is or complementing each other. The days are hot, the nights are steaming, provoking looks is Provocator's Summer 09/10.

A male model with dark hair and light eyes is wearing a black, buttoned blazer over a dark shirt and blue jeans. He is standing with his hands on his hips, looking directly at the camera. The background is a light gray wall with faint, repeating text patterns. In the top right corner, there is a red banner with the word 'PROVOCATOR' in white. Below it, there is a large, dark, abstract graphic that looks like a stylized tree or a group of people. To the right of the model, there is a large, dark shadow of the model's head and shoulders.

# brand profile

**brand profile**  
 JANE BY GUY AARONSON

...the brand's success is due to its focus on quality and its commitment to sustainability. The brand's products are made from high-quality materials and are designed to last. Additionally, the brand is committed to ethical manufacturing practices and environmental sustainability. This commitment has helped the brand build a strong reputation and a loyal customer base.

## PROVOKING IDEAS INTO ACTION

Arthur Georgopoulos began his fashion career with just one borrowed roll of denim and a pair of cutting equipment. With these he created a fab fabric label in 1980. Georgopoulos' second fashion venture, Provocator, for his latest label, the brand for design, but represented a certain radical yet unapologetic philosophy. Consequently, Provocator was born, refusing to follow trends, and instead delivering a variety of styles for individual wearers. As Provocator denim is located in France, providing the opportunity to experiment in the cutting, washing and piecing together of the fabric, hence developing new looks all the time. Georgopoulos, who took various design tips from his mother, also a designer (she suggested he suck the collar into the side and use fashion as camouflage or uniform, depending on what the occasion calls for). "I work with look-what-I-am, and I am in pain. I want to believe I have completed my creative journey and I am, and I am of individuality (the brand) and stand out from the crowd." Only a moment of Greek mythology could come up with that ingenious effort. Like Arthur, 1980.

SKINNY Latest fragrance is all you need to be provocative with Provocator

Provocator

## Provocator

at Comptex was the kid in highland that drew all over his head to wear new jeans to show, and proved no longer something to read into the late '70s early '80s trend of dark denim progress in his class. The fashion industry in his head like another to play a design? It was one of the Andros should have had himself designing denim, something he has worn since in 2001. Since then, the size of his jeans has grown to be a massive way a trend, possibly the **unwashed, heavy denim jeans of the 70s, perfectly worn and mangled to fit the body**. 50 pairs of jeans to get the best possible fit, and better than any other jeans in the world. The look is a bit like a 10, so just have to keep calling to the sales assistant to get you into it. The Queen Leila.

Photography: David Wooding. Also keep back to back. Band angles. Provocator jeans

Provocator is already well known for its huge range, unique washes, new fabrications, heavy treatments, denim zipping and the list goes on! Provocator this Winter was Australia's hottest denim team revising classic raw denim. The designers' inspiration drew on the '70s unwashed jeans made from stiff and hard heavy weight denim fabrics. Back then, wearing a raw pair of jeans meant that the body had to do all the wear and tear. The comment again... not to wash the jeans for at least three months, and wear them regularly to allow them to mould and fit perfectly to the body. Provocator believes that this may be a little extreme, but appreciate the true commitment to individuality. All Provocator jeans are put through to guarantee a quality fit. The denim is **unwashed** from old mills around the world, and as they have been from the very beginning use the same unwashed yarns and outgoes from plants, not from the industrial dying process. This allows for the garment to fade and crease naturally on the body after Provocator's original application treatment.

Provocator's demonstration of emerging treatments, most of which are achieved with hand-dyeing a continuous development, offers unique design products for high-end customers.
